

2020 STRUCTURAL ENGINEERING SUMMIT

November 4–6, 2020...& beyond

Designed by Structural Engineers for Practicing Structural Engineers

Summit Virtual Trade Show

NCSEA's Structural Engineering Summit is now a virtual-only event that includes a robust Virtual Trade Show.

The Summit puts your company in front of practicing structural engineers, and is the only event this year solely-focused on practicing structural engineers.

What does a Virtual Summit deliver to exhibitors? **Lots of value-added opportunities!**

- Raffles and games will be held throughout that two months to encourage attendance, and exhibitors will be provided with a contact list post-Summit.
- Each exhibitor has access to the **Exhibitor Zone**, a personal Zoom meeting room for you to interact with structural engineers:
 - Scheduled rooms for each exhibitor for 30-minute sessions from Oct. 1 through Nov. 24
 - NCSEA will promote the rooms and schedule to our entire list
 - Free registration for all, and exhibitors receive the room registrant list
 - Content determined by exhibitor – demos, education, games, networking
 - Prize drawings encouraged

Each Virtual Trade Show Booth will include:

- Up to 8 of your representatives per booth, with access to Summit education
- Opportunities to include catalogs, materials, photos and videos
- The ability for attendees to connect with exhibitors easily through contact buttons
- Priority booth selection for next year's show

- Virtual Trade Show will be open from October 1 - November 24.
- Summit registrants will have access during that entire time period, but **anyone** can access the trade show from Oct. 1 - Nov. 2 for free.

Booth Prices:

NCSEA Corporate Members:	\$2,650
Non-members	\$3,000

Booth registration and payment can be completed via credit card through the Online Store on NCSEA's Member Portal at bit.ly/2020SummitTradeShow. You also can secure your booth by calling 312/649-4600, ext. 204.
