

## WHAT IS THE FSEA YOUNG MEMBERS GROUP?

- A group of the Florida Structural Engineers Association which focuses on EI's and recent PE's working in, or interested in working in, the structural field.

## WHAT DOES THE GROUP DO?

- The FSEA Young Members Group
  - Helps young engineers meet other engineers and professionals in their industry
  - Provides a resource for young engineers to get advice, guidance, and learning tools from experienced Structural Engineers
  - Organizes seminars on design topics not normally learned in Undergrad
  - Travels to construction sites to get a hands on look at how designs become reality
  - Offers opportunities for structural related community service projects
  - Plans fun networking events like Happy Hours, Bowling, and Barbeques
- The group strives to help young engineers by introducing them to people, design procedures, and experiences that will better them as engineers and build their resume credentials.

## WHO CAN PARTICIPATE?

- Anyone interested in furthering their contacts, experience, and knowledge of Structural Engineering.

## HOW CAN YOU BECOME MORE INVOLVED?

- Contact (insert YMG Contact here) and attend the local meetings and events.
